

DEMO-OP

Excellent medical education and training at the CT² of RWTH Aachen

The Medical Faculty of the University Hospital of RWTH Aachen offers in CT², the Center for Teaching and Training with the Demo-OP (demonstration operation room) an excellent infrastructure for the realization of first-class medical continuing education.

Together with the specific know-how and fresh frozen specimens of the Anatomical Institute, events can be held at the highest level for all surgical disciplines.

Whether OR courses, product training, hands-on training or advanced training – RWTH International Academy gGmbH organizes your event according to your specifications!

We will support you in the planning and implementation of your ideas – individually and tailored to your wishes. Get in touch with us to receive further information!

Your idea

OR courses

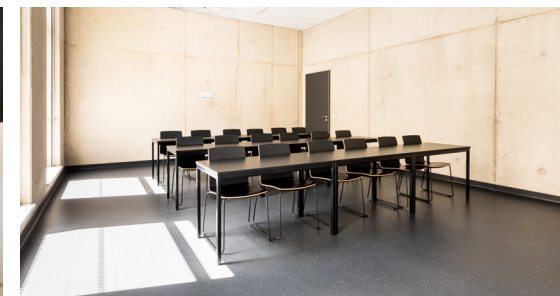

- Link theory with applied practice in a focused manner
- Establish direct reference to everyday professional life through real case descriptions
- Gain surgical confidence and experience
- Practice “complicated” cases in a plannable way in a safe environment
- Define and try out procedures in the team

Training for companies

- Reduce time-to-market significantly
- Develop and test innovative instruments, devices and materials of all risk groups as well as processes under real-life conditions
- Support and operationalize constructive and valid feedback through an intensive exchange of medical professionals, scientists and producers
- Provide intensive product training for users
- Market launch events
- Brainstorming workshops for product development
